

CH20 | ELBOW CHAIR

HANS J. WEGNER

DESCRIPTION

Hans J. Wegner designed the stackable Elbow Chair in 1956. However, it was first put into production by Carl Hansen and Søn in 2005, soon establishing itself as an award winning modern classic. The CH20 Chair's steam-bent backrest, crafted from a single piece of solid wood, provides good support and enables a variety of sitting positions.

PRODUCTION PROCESS

The back is steam bent and all other parts are processed on machines. Afterwards they are polished and assembled by hand. After treatment the upholstery is mounted on by hand as well.

DESIGNER

Danish architect Hans J. Wegner (1914-2007) is considered a pioneering furniture designer of the twentieth century. Often referred to as the master of the chair, Wegner created almost 500 in his lifetime - many of them considered masterpieces. Wegner was part of the spectacular generation that created what is today referred to as 'the Golden Age' of modern Danish design.
